### **Ambassador of the Argentine Republic visited the Science Development Foundation**

Science Development Foundation (SDF) under the President of the Republic of Azerbaijan expands its international relations and implements concrete plans in the field of cooperation. The Foundation has successfully cooperated with Embassy of the Argentine Republic in Azerbaijan in last years.

Executive Director of the Science Development Foundation Mr. Elchin Babayev mentioned that the relations between Azerbaijan and Argentina have been developing on a sustainable basis, as in other fields, scientific cooperation was established in accordance with the requirements of the new era. As a concrete proposal, it was offered to organize joint seminars in Baku, Ganja and Nakhchivan in order to strengthen cooperation between Azerbaijani and Argentinian scientists.

Ambassador Carlos Diva characterized political, economic and humanitarian relations between both countries established at various levels. Any kind of support will be provided for developing effective cooperation between Azerbaijani and Argentinian scientists, he said.
