

PRESS-RELEASES

Regional Director of “Elsevier” for Central Asia and Azerbaijan Ms. Aliya Ospanova visited the Science Development Foundation

There has been held a meeting in the Science Development Foundation under the President of the Republic of Azerbaijan with the recently appointed Regional Director of “Elsevier” for Central Asia and Azerbaijan, Ms. Aliya Ospanova. Elsevier is one of the largest scientific-information and analytical companies of the world.

Executive Director of the Science Development Foundation Mr. Elchin Babayev gave detailed information about the recent activities of the foundation, and Aliya Ospanova, in turn, spoke about new opportunities and advantages of Elsevier and SCOPUS and informed about the indicators of Azerbaijani scientists' activity for years 2012-2017.

During the meeting, they discussed prospects for development of cooperation between parties for coming years 2017 and 2018, and agreed that Elsevier would regularly support Azerbaijani scientists in cooperation with the Foundation through conducting trainings and seminars.

Elsevier provides information and analytics that help institutions and professionals to develop science, advance healthcare and improve performance. It was established in 1880 as a publishing company in Netherlands. In the primary research market during 2016, researchers submitted over 1.5 million research papers to Elsevier-based publications. Over 20,000 editors managed the peer review and selection of these papers, resulting in the publication of more than 420,000 articles in over 2,500 journals.
